

TAGA:

EPA conducted air sampling using the Trace Atmospheric Gas Analyzer (TAGA) on April 2, 2019 at the KMCO Inc. facility in Crosby, Texas. The TAGA analyzed the air samples for benzene, toluene and xylene. The TAGA air sampling results were compared to the Texas Commission on Environmental Quality (TCEQ) short-term Air Monitoring Comparison Values (AMCVs) and found no exceedances of the short-term AMCVs for benzene, toluene and xylene.
